Small UAS Certificate of Registration

Name: Rafiki Creative

Manufacturer: DJI

Model: M600

Serial Number: M64DDF15010012

Certificate Number: FA37MWTTHN

Issued: 04/06/2017 Expires: 04/06/2020

For U.S. citizens, permanent residents, and certain non-citizen U.S. corporations, this document constitutes a Certificate of Registration. For all others, this document represents a recognition of ownership.

For all holders, for all operations other than as a model aircraft under sec. 336 of Pub. L. 112-95, additional safety authority from FAA and economic authority from DOT may be required.

This Small UAS Certificate of Registration is not an authorization to conduct flight operations with an unmanned aircraft. Operations must be conducted in accordance with the applicable FAA requirements. The operator of the aircraft is responsible for knowing and understanding what those requirements are. For more information on flying for non-model purposes, please visit the FAA website at www.faa.gov/uas

ATTN: Operations Inspector

Inspector,

Following please find our Plan of Activities (POA) for sUAS image-capture operations at 430 Kanan Dume Road in Unincorporated LA County, proposed for July 7/1/18.

Operations satisfy and will take place under Part 107 Remote Pilot Certificate Number #3929567 initially issued to Alexander Odesmith on 1/13/16 and the blanket Certificate of Authorization (COA) issued in May, 2016 “to any operator with a valid Part 107 License.”

A PDF of the Operators Remote Pilot Licence and Drone Registration Certification are attached.

The appropriate NOTAM will be filed prior to operations.

120 E Films LLC will secure all necessary permissions and permits from the Film LA for the use of this location and UAS Activity

Best,

David Markun

PREVIEW

Criteria and Guidelines for Film LA DRP Referrals in the Santa Monica Mountains

Updated: May 1, 2018

Information to be asked by Film LA:

- Specific location(s) for filming, simple site plan/pinpoint on aerial image where filming will occur. Photographs of area to help clarify, if needed.
- Will new construction of any set or set material be required?
- Will vegetation/wildlife/natural habitat be disturbed by the film activity? Explanation of yes or no response.
- What type of equipment will be utilized for filming activities, and where will the equipment be stored? Are any generators or other fuel sources proposed?
- How many crew will be on set? What are the proposed hours of operation, including set and strike?
- How many trucks, trailers, and other vehicles or machinery will be on set, and where will they be stored? Have the production list the types of machinery (for example, cranes, fans, trucks, generators, special effects equipment, etc.).

Criteria for Permits that do not need referral to DRP:

1. Projects that do not require construction of any temporary or permanent structure.
2. Projects that require no brush clearance, vegetation removal, or placement of any permanent or temporary structure within protected zones of native trees, such as oak trees
3. Projects filming within existing structures and/or where no modifications need to be made
4. Projects where only persons and/or hand-carried items will be present within vegetated habitat areas (ex: filming under an oak tree should not include installation of material in the ground or on the tree)
5. Projects which do not involve the alteration of the physical environment, such as the staging of equipment and crew, including trucks and other large equipment for filming (fans, wires, cranes, etc.) and where the potential for noise, lighting, air quality impacts is not significant.

Situations where DRP may want to review filming event:

1. Events using wildlife or domestic animals in sensitive habitat areas (want to look at animal containment and cleanup programs when events are near sensitive habitats)
2. Construction or modification of temporary or permanent structures and any structure that would normally require a building permit.
3. Movement of vegetation, Use of nursery stock/new landscape/reseeding of vegetation
4. Filming in or near any sandy beach area under County jurisdiction (i.e. Nicholas Canyon and Topanga County Beaches, Leo Carrillo State Park beach area)
5. Grading, digging, trenching, mining or extraction of materials
6. Discharge or disposal of gaseous, liquid, solid, or thermal waste
7. The use of fireworks, explosions, pyrotechnics, and fire, including bonfires, fire-pits or campfires.
8. Projects that involve the alteration of the physical environment, such as the staging of equipment and crew, including large amounts of trucks and other large equipment for filming (fans, wires, cranes, aircraft, etc.) and where the potential for noise, traffic, lighting, and air quality impacts are significant.

Feet

Copyright 2013 - Los Angeles County Department of Regional Planning, GIS Section. Note: This map represents a quick representation of spatial imagery or vector layers using GIS-NET3. The map should be interpreted in accordance with the GIS-NET3 Public disclaimer statement. Printed with permission from the Los Angeles County Dept. of Regional Planning. All rights reserved.

Los Angeles County Dept. of Regional Planning

Conditions for Filming at Calamigos Ranch:

1. At any time, the Director of Regional Planning may determine that any filming activity requires a Coastal Development Permit (CDP) when the unique circumstances of a filming event have the potential for significant adverse impacts on coastal resources or public access.
2. If substantial changes to filming activities occur after initial approval from FilmLA, the filming event shall be subject to further review and approval by FilmLA and/or Regional Planning and may also be required to obtain a CDP for such activities.
3. The construction or placement of any permanent structures, sets, and props requiring a foundation or footing such as concrete, gravel, or fill material is prohibited. There shall be no splicing of power lines.
4. In undisturbed vegetated areas, the following activities are prohibited: Parking of vehicles and trailers, Storage of equipment, Placement of tents, canopies, sets, props, or lighting. Areas that are permissible for these activities include graded, cleared, paved, or mowed areas without sensitive habitat(s).
5. The placement of any structure, equipment, or vehicle underneath or within five (5) feet of the canopy of any Oak, native, or other protected tree is prohibited. Do not pour or empty water or any other liquid around the base of any native or protected tree.
6. During nighttime filming, set or strike activities, all sources of lighting and sound shall not trespass onto neighboring properties.
7. All lighting shall be fully shielded and pointed downwards. Night lights are prohibited from directly shining on to active bird nests or any other sensitive habitat.
8. The painting or coloring of any existing vegetation is prohibited.

NO PERMIT

Criteria and Guidelines for Film LA DRP Referrals in the Santa Monica Mountains

Updated: May 1, 2018

Information to be asked by Film LA:

- Specific location(s) for filming, simple site plan/pinpoint on aerial image where filming will occur. Photographs of area to help clarify, if needed.
- Will new construction of any set or set material be required?
- Will vegetation/wildlife/natural habitat be disturbed by the film activity? Explanation of yes or no response.
- What type of equipment will be utilized for filming activities, and where will the equipment be stored? Are any generators or other fuel sources proposed?
- How many crew will be on set? What are the proposed hours of operation, including set and strike?
- How many trucks, trailers, and other vehicles or machinery will be on set, and where will they be stored? Have the production list the types of machinery (for example, cranes, fans, trucks, generators, special effects equipment, etc.).

Criteria for Permits that do not need referral to DRP:

1. Projects that do not require construction of any temporary or permanent structure.
2. Projects that require no brush clearance, vegetation removal, or placement of any permanent or temporary structure within protected zones of native trees, such as oak trees
3. Projects filming within existing structures and/or where no modifications need to be made
4. Projects where only persons and/or hand-carried items will be present within vegetated habitat areas (ex: filming under an oak tree should not include installation of material in the ground or on the tree)
5. Projects which do not involve the alteration of the physical environment, such as the staging of equipment and crew, including trucks and other large equipment for filming (fans, wires, cranes, etc.) and where the potential for noise, lighting, air quality impacts is not significant.

Situations where DRP may want to review filming event:

1. Events using wildlife or domestic animals in sensitive habitat areas (want to look at animal containment and cleanup programs when events are near sensitive habitats)
2. Construction or modification of temporary or permanent structures and any structure that would normally require a building permit.
3. Movement of vegetation, Use of nursery stock/new landscape/reseeding of vegetation
4. Filming in or near any sandy beach area under County jurisdiction (i.e. Nicholas Canyon and Topanga County Beaches, Leo Carrillo State Park beach area)
5. Grading, digging, trenching, mining or extraction of materials
6. Discharge or disposal of gaseous, liquid, solid, or thermal waste
7. The use of fireworks, explosions, pyrotechnics, and fire, including bonfires, fire-pits or campfires.
8. Projects that involve the alteration of the physical environment, such as the staging of equipment and crew, including large amounts of trucks and other large equipment for filming (fans, wires, cranes, aircraft, etc.) and where the potential for noise, traffic, lighting, and air quality impacts are significant.

NOT A PERMIT
